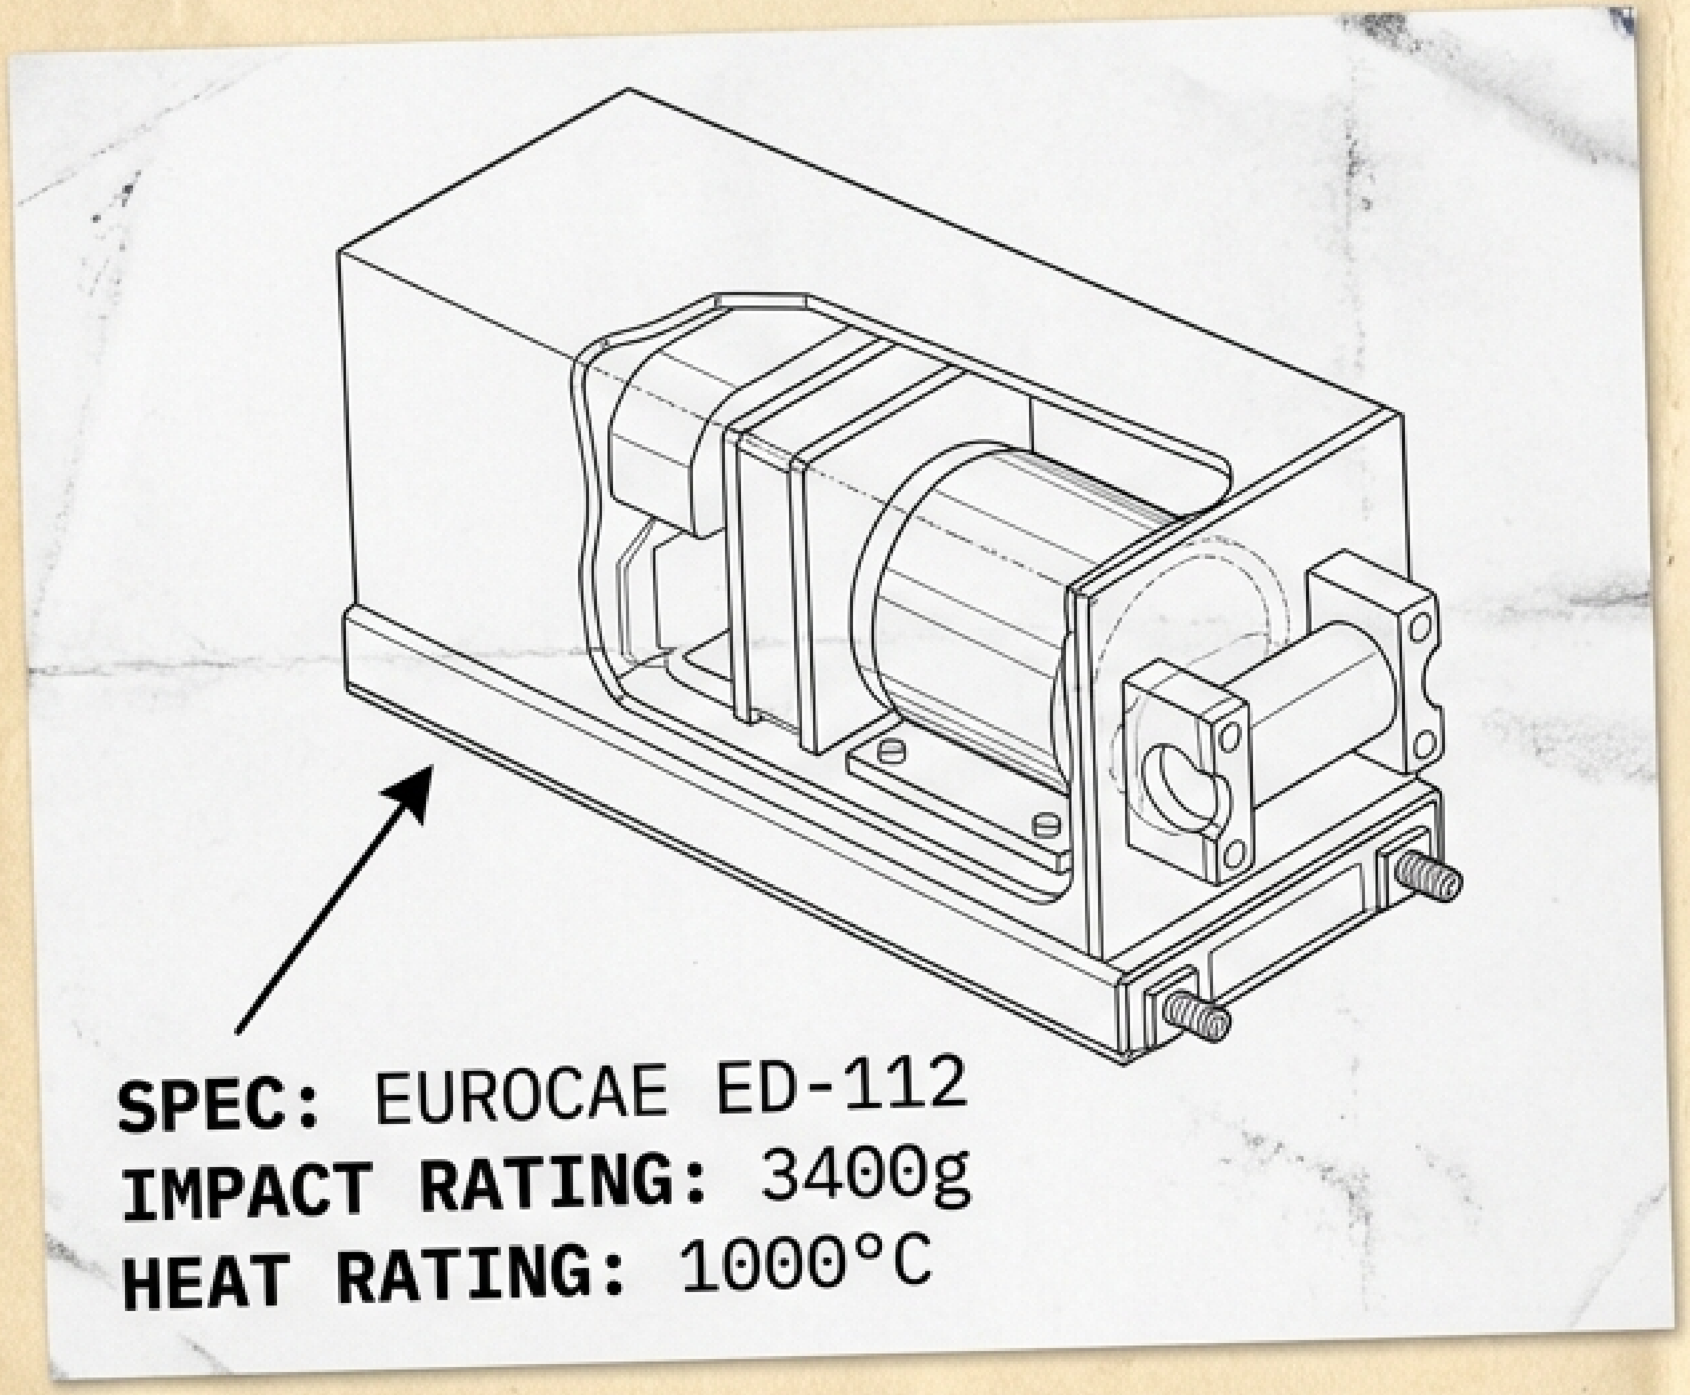
INTELLIGENCE NOTE: They tell you the truth, then hit you with a theory so ludicrous you can't possibly accept it.

The "Andre Ingram" theory is a **blackwashing tactic.**

If it wasn't a plant, YouTube would have removed it.

Ignore the noise. Focus on the physics.

THE BLACK BOX ANOMALY



SPEC: EUROCAE ED-112
IMPACT RATING: 3400g
HEAT RATING: 1000°C

OFFICIAL NARRATIVE: The helicopter had no black box.

REGULATORY REALITY: Mandatory on all commercial aircraft since 1967. Island Express is a commercial operator.

Why would the FAA allow them to fly without one?

THE RADAR PARADOX

REPORT A:
LAPD helicopters and most traffic grounded due to fog.

REPORT B:
Helicopter circled due to heavy air traffic in area.

CONTRADICTION

HEY SHERLOCK:

How can there be "heavy traffic" if everything is grounded?

ALSO: At 9:30 AM, pilot was told he was too low for radar tracking.

FILE NO: 12-943-B

DATA OUT OF THIN AIR

CLIMB RATE:	1200 to 2000 ft ?
SPEED:	161 KNOTS (EXACT) ?
DESCENT:	>4000 FT/MIN ?

MANUFACTURED

THE LOGICAL GAP: If there was NO Black Box and the aircraft was OFF RADAR, where did these specific numbers come from?

Point A: Santa Ana

Why fly **low** (1200ft) over **downtown skyscrapers** in **“fog”** to go **North**, when the destination is **West**?

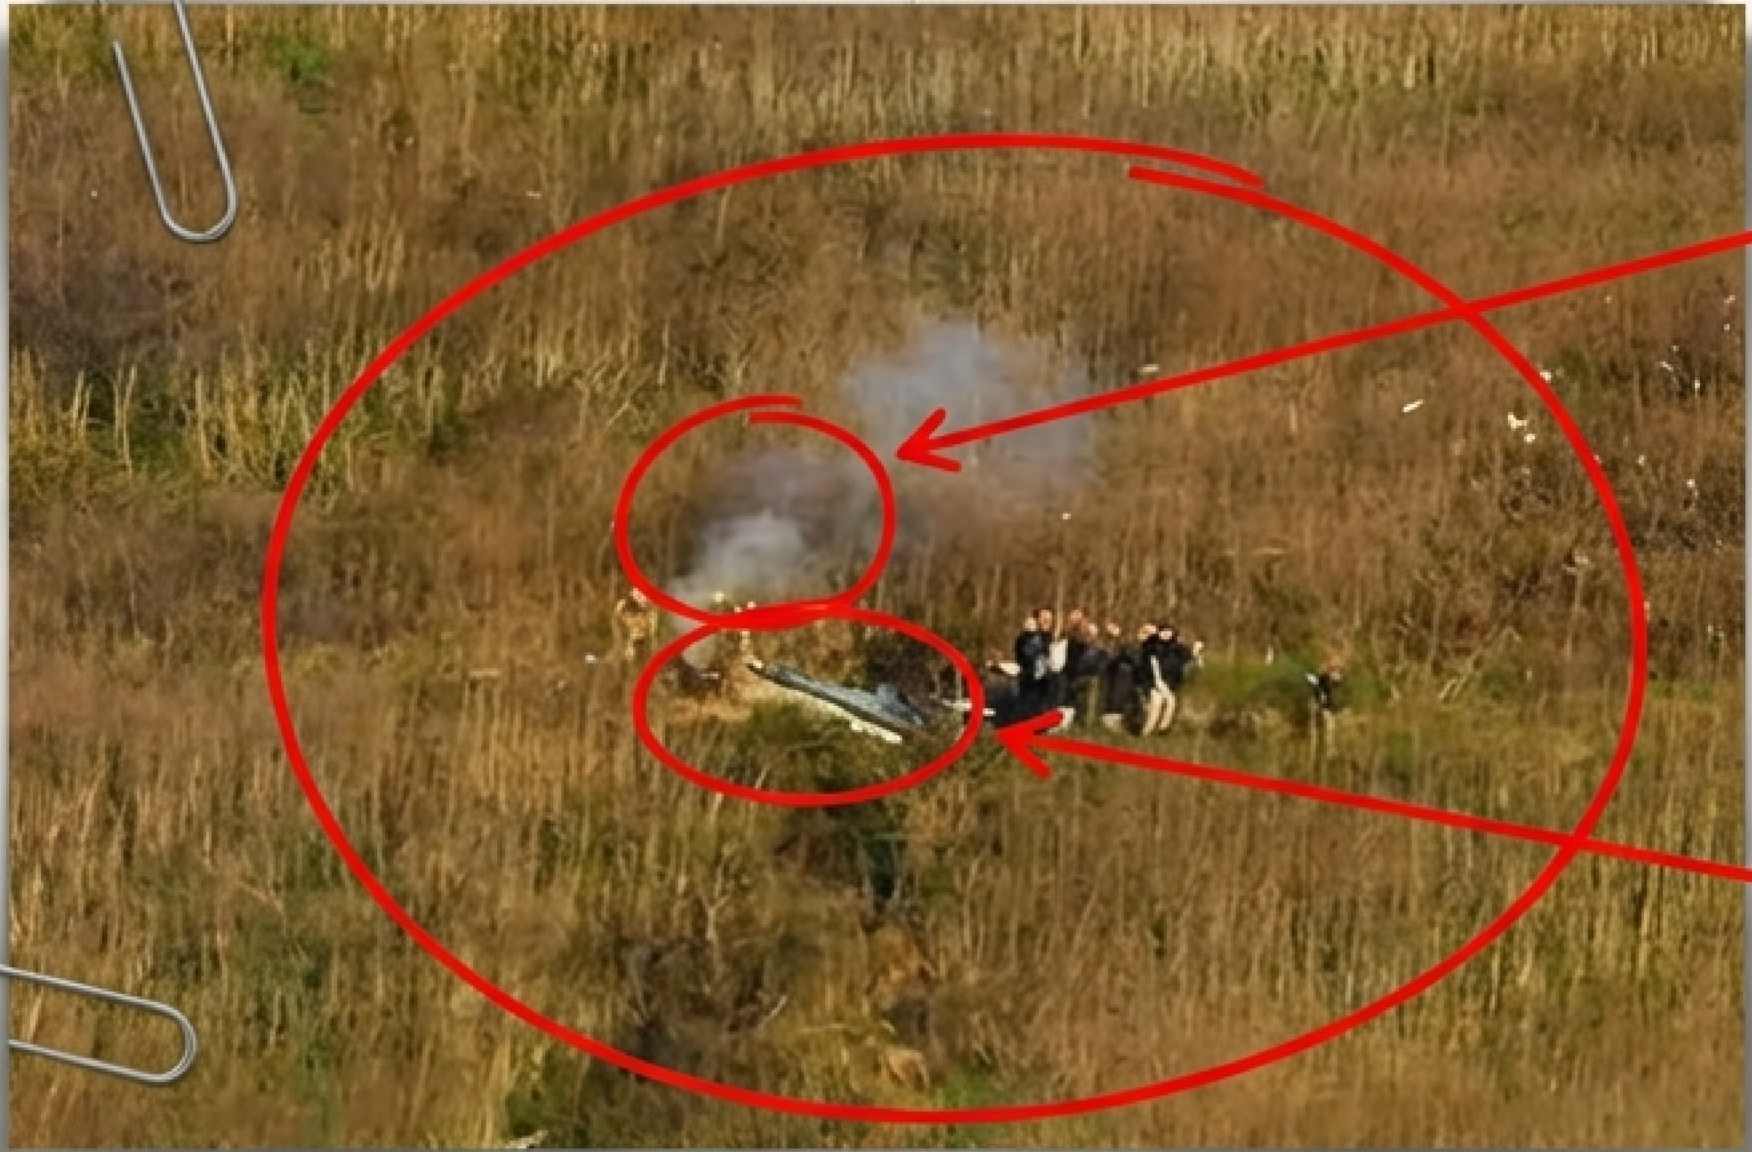
ALTITUDE TRUTH?

- ✓ FACT: Sikorskys have onboard altimeters. They do not rely on tower radar.
- ✓ FACT: Experienced pilots do not fly I,200ft in 2,000ft elevation mountains.
- ✓ PATTERN: Similar “weather fraud” found in Maui fires and Titanic narrative.

Weather is the excuse.
Incompetence is the cover story.

CONFIDENTIAL

THE ‘PUFF OF SMOKE’ FORENSICS



NO SCORCH MARKS

NO SIKORSKY WRECKAGE

Where is the massive brush fire? Where is the debris field of a multi-ton machine? This looks like a smoke pot, not a crash.
